UICC World Cancer Congress- Bridging the Gap-Transferring Knowledge into Action**July 8-12**

The Conference offers a unique opportunity to connect one of the most diverse international groups ever assembled. UICC stands poised to bring together cancer scientist and researchers governmental agencies, the medical community and public health organizations in an unparalleled opportunity to enhance the global fight against cancer. By bringing together the various specialists, Congress will translate groundbreaking research into health care practices that work to fight cancer in diverse communities worldwide. For more information visit:

<http://.2006conferences.org/u-index.php>.

CDC Cancer Partners – Empowering Partners for Effective Integration: Charting a New Generation of cancer Control Partnerships

July 12-13

Washington, DC

CDC will show case partnerships, and provide opportunities for interactive discussions focusing on the future needs for continuing to activate and strengthen collaboration among cancer control initiatives. Sessions will cover a broad range of US cancer control programming, including

- ◆ Developing new comprehensive, collaborative programs and leveraging existing ones
- ◆ Using data to plan, identify needs, and evaluate outcomes
- ◆ Building cancer control partnerships: education, training, interventions, outcomes, and cost-efficiency
- ◆ Integrating tobacco control with public health cancer control efforts
- ◆ Promoting community-based research best practices
- ◆ Establishing and improving collaborations at national, federal, state and local levels to solve cancer control problems

For more information visit: <http://.2006conferences.org/u-index.php> and [CDC Cancer Partners Summit Preliminary Program](#)

World Tobacco Conference

July 12- 15

Washington, DC

The conference features the latest research on the science of tobacco and its effects. Presenters will share relevant new data on topics including addiction, cessation, public policy, secondhand smoke, and smokeless tobacco. The conference will also allow delegates to examine the impact of the Framework Convention on Tobacco Control and to discuss ways developing countries can use it to promote their tobacco control efforts and how it can reinforce tobacco control in developed countries. For more information visit: <http://.2006conferences.org/u-index.php>
